

# CTGP-7 Installation Instructions

## Installation methods:

To play CTGP-7, you need Luma CFW v9.0 or greater and sysnand/emunand to be on 11.4 or greater. The mod has an automatic updater as well as an in-game plugin capable of adding extra features to the game such as a speed modifier, speedometer, backwards camera, extra cups, etc. It is very easy to install and only requires installing a cia or 3dsx.

- 1) Extract the SD from your 3DS and connect it to the computer. You can also use MicroSD Management or an FTP client if you wish.
- 2) At this point you can choose if you want to use the cia or the 3dsx homebrew app:
  - a. **Cia:** This installs to your home menu and shows up like any other app. You will be able to launch the mod directly from the home menu.
  - b. **3dsx:** This can be launched from the Rosalina homebrew launcher. It doesn't require the installation of any kind of cia files.
- 3) Download the **.cia** or **.3dsx** from gamebanana. For the **.cia**, go to **FBI** in the home menu, go to the SD, select the CTGP-7 cia and chose **Install CIA**. For the **.3dsx**, copy the file to the **3ds** folder (if it doesn't exist create it).

- 4) After the app has been installed, you will find it on your home menu (**cia**) or in the homebrew launcher (**3dsx**).

- 5) After opening the CTGP-7 app, the installer will ask you to continue with the installation. After the installation has finished the app will reboot and you will be able to play the mod.
- 6) **(Optional)** You can now remove the CTGP-7 **.cia** file or **.3dsx** (only the 200MB one) from the SD card to free some space as it won't be needed anymore.

# Uninstalling:

To uninstall the mod, go to **FBI**, then **Titles**, from the list select **CTGP-7** and choose **delete title**.

Titles		Title Action
MARIO KART 7		Launch Title
2048 3D		Delete Title
Anemone3DS		Delete Title And Ticket
Animal Crossing New Leaf		Extract SMDH
Animal Crossing: New Leaf		Import Seed
Biniax2		Browse Save Data
Boot NTR Selector		Import Secure Value
CTGP-7		Export Secure Value
Cthulhu		Delete Secure Value
edpJoy3DS 0.6.2		
FBI		
freeShop		
FTP		
A: Select, B: Return, X: Refresh, Select: Options		A: Select, B: Return

After that, you can delete the **CTGP-7** folder on your SD card as well as the **.3dsx** inside the **3ds** folder if it exists.
